

NEW ZEALAND AMATEUR RADIO BANDPLANS P1 OF 2

These charts show the New Zealand bandplans. **These bandplans are to ensure that your transmissions do not impose problems on other operators and that their transmissions do not impact on you. It is to the advantage of all operators that the published bandplans be used.** The Ministry of Economic Development (MED) defines the band limits, while the internal band segments are derived from the IARU Region 3 bandplans with New Zealand adaptations. The band limits are found in *Schedule 3* (attached to each amateur radio licence), on the NZART web site in the Study Guide (Regulations). <http://www.nzart.org.nz/nzart/exam/> and at each end of the band blocks as shown below. The Region 3 bandplans are at the IARU Region 3 web site. <http://www.jarl.or.jp/iaru-r3/r3bandplan.doc>
